PROFILE

I am a front-end developer with over two years of experience in React. I have focused on user-centred design, accessibility, and responsive principles to create high-quality, visually appealing websites. My passion for innovation drives my commitment to continuous skill development, while my collaborative approach ensures successful project outcomes.

WORK EXPERIENCE

FRONTEND DEVELOPER

Humane club | Oct, 2021 - July 2023

- **View Dashboard:** Created React UI components (e.g., dropdowns, sliders, filters) for a polished Humane Dashboard, with redux managing state.
- **Dynamic Forms and Data Displays:** Developed dynamic React forms and data displays, integrating seamlessly into the Humane Dashboard, while Redux handled state.
- **Nudge Bot Chatbot & Plugin Integration:** Developed a versatile Nudge Bot chatbot with 50+ features. I have integrated it as a plugin, offering chat history, analytics, and customization for 100+ clients.
- **Dynamic Table of Contents Plugin:** Designed a React-based plugin that auto-generated content lists for blog posts, enhanced navigation, and managed with React/redux.
- **Data Synchronization with Rest API:** Integrated Data Wrapper for one-click data sync, including complex calculations. Redux.js managed real-time monitoring and data integrity, all within the browser.

FRONTEND DEVELOPER

PAPERBRIDGE SOLUTIONS PRIVATE LIMITED | Aug 2023 - Present

- **Content Management Dashboard:** Develop a React-based dashboard for managing articles, tracking revisions, scheduling publications, and real-time collaboration with RBAC, Redux for state management, drag-and-drop functionality, and analytics integration.
- **Interactive Content Visualization Tool:** Create a React tool for visualizing content performance using dynamic charts (Chart.js), customizable filters, and exportable reports.
